BUSIEST ELECTION OF HISTORY IN PRESCOTT

Rival Candidates Work Tooth And Nail Till Sundown

With the largest vote ever cast in
the city the polls closed yesterday eve-
ning at 5 o'clock, ending one of the
quietest and least exciting elections
ever known in the history of Pres-
cott. In the South precinct 601 votes
were polled, and 58 in the north
precinct, making a total of 1,159.

During the day it was generally con-
ceded by the leaders of both parties
that the result was in doubt, but be-
fore the polls closed betting on the
chances of the different candidates
was lively. Odds of two to one were
freely offered on J. W. Smith for sher-
iff. A large amount of this odd was
taken by the Democrats with Neagle
as their favorite.

From the time the polls opened in
the morning, automobiles and light
vehicles sped in different directions
through the city conveying electors to
and from the polls. The automobiles
and rigs were decorated with canvas
signs bearing the names of favorite
candidates. The autos and teams were
kept moving swiftly until the close,
owing to the large vote cast.

After six o'clock the polling places
were crowded with admirers of candi-
dates and party leaders listening to
the count. The count revealed more
than the usual number of scratched
tickets, only very few straight tickets
being found in the ballot boxes.

The office of the board of super-
visors was the storm center of a large
crowd until early this morning. Clerk
Peter of the board received the re-
turns by telephone from outside pre-
cincts and bulletined them for obser-
vation by his visitors. In Birch Broth-
ers cafe excited men were standing as
close as sardines in a box until early
this morning cheering the returns
from the county precincts and the sev-
eral states. The Wellington and Pal-
mer saloons were also the scenes of
exciting crowds reading and discuss-
ing the national, state and territorial
results until early morning.

Betting on the results was occasion-
ally lively but the best of order pre-
vailed at all times. The fact of this
being a presidential election attracted
a large number of the residents of
neighboring precincts here last night
to hear the election returns. The
count of the ballots which lasted until
early this morning shows less straight
tickets cast than last year, indicating
that the electors of this city are grad-
ually breaking away from strict party
ties and vote for the man in county
affairs rather than the chosen candi-
date of their party representatives in
convention. Returns from outside pre-
cincts show similar conditions pre-
vailing all over the county.

RETIRING FROM BUSINESS.

To the Ladies of Prescott:

I wish to thank the ladies of this
city and surrounding towns for their
liberal patronage. Having sold my
millinery business to Mrs. J. A.
Sprague of Denver, who will take full
possession about December 1, I hope
you will continue to patronize my suc-
cessor.

As I desire to close out my entire
stock, I am now offering bargains that
have never been equalled in Prescott.
Orders will be taken as my trimmer,
Mrs. Bird, will be with me until the
stock is disposed of.

Thanking you for past favors,
MRS. MOLLIE EVANS.

When your "fad" grows old sell it

A Chest of Silver

WE HAVE on exhibition a mag-
nificent chest of sterling silver—
a complete table service in the famous
Colonial Pattern. The various articles are so classified that they
can be shown without confusion or loss of time. Each individual
piece of a dozen is clearly displayed. This affords the only convenient
and satisfactory way of examining silver. You can rummage showcases
half a day and not bring to light half so many varied and attractive
pieces as you will see in five minutes' time running through this com-
plete chest of Colonial silver, which contains an extensive array of
the smaller pieces so much in demand for anniversaries, weddings, and
birthdays. Orders accepted for complete chests or individual pieces.

CAMERON WINS

Wednesday, Nov. 4--2:30 P. M.--

Cameron's election is positively assured.
He carries Cochise by 400, Maricopa
County by over 200. His plural-
ity at this hour in Yavapai is 332 and
with 16 precincts to hear from will reach
360. Other counties give small plurali-
ties for Cameron, who has cut down
Smith's usual big majority in Graham to
350, and reduced it in Gila to 150.

Cameron's certain plurality is 400.

BOUSE SELLS ANOTHER.

Dutchman Group Passes to Syndicate
of Californians.

BOUSE, Nov. 2.—It was intimated
a few days ago when the announce-
ment of the sale of the Little Butte
group by Bouse and McMahon, the
original locators, was sent to The Re-
publican, that a second important sale
was on the tapis.

It was concluded yesterday and the
first payment made. The transaction
has been conducted with extreme se-
crecy, but it turns out that the well-
known Dutchman group was the ground
that passed in yesterday's sale. This
group contains a large acreage and is
considered by many as the best
ground in the camp.

Both sales were negotiated by Col.
J. C. Denton of Bouse, a former Gold-
field operator and promoter who knows
how to swing a deal. This makes the
second large sale in the camp last
week, both negotiated by Col. Denton,
who is systematically interesting a
wide circle of his mining acquaint-
ances in Nevada, Colorado and Los
Angeles, in the merits of this great

young copper camp. His work is ap-
preciated by the miners of Bouse camp
many of whom have more property
than they are able to develop actively
and are delighted to find that Col.
Denton is able to deliver the boom
which all summer he has promised
them for this fall and winter. He states
that if Taft is elected he will be able
before midwinter to conclude a dozen
large sales in the camp to capitalists
whom he has already interested, but
who are reluctant to make commitments
until after the election. But Bouse
feels that two big sales in one week
is pretty good for a starter for a
boom. It is understood that Col. Den-
ton has taken over these two splendid
copper properties for a syndicate of
heavy Los Angeles operators, who will
not spare money in crowding develop-
ment.

COPPER CAMPS ALL TRY TO REACH CAPACITY

(From Tuesday's Daily)
News from the different
camps all tends to indicate that
mining companies are endeavoring
to reach capacity in their output.
The Mining Record. Since the
& Montana smelter was put on
commission by floods, the repair
has been rushed until the plant is
ready to handle its full capacity
ore. The Utah Consolidated is
making every point to increase its
duction, and toward this end is
making on the construction of its
reduction works. The Combe-
lly and the Nevada Consolidated
enlarging their reduction capacity
rapidly as possible, and the
Canadian copper company in Son-
ora endeavoring to double its output
early date. These are merely
some of the things they are doing
the copper districts, but they in-
dicate that the producers, whether in
"combine" or out of it, expect
a ready market for all the copper
they can refine.

Authorities in England declare
the surplus stocks of the red metal
hand in that country, while pre-
viously larger than formerly, are not
in proportion as they have been
most of the years past. This in-
crease in consumption has also taken
most of the other European coun-
tries so that at this time Europe is
consuming about all the surplus
per ton can be produced in Amer-
ica not only in the United States
but Canada and Mexico as well.

Irrespective of the quotations
14 cents a pound, it is known
the Calumet & Hecla is not selling
of its output under 14 cents.
Also apparent that the demands for
red metal in this country have
increased wonderfully during the
few weeks.

It is also to be noted that the
of the copper companies have sta-
bly been gaining strength in the
market. No noticeable advance
dividend rates by the big com-
panies have been recorded, nor is it
likely they will be until these corpo-
rations have a large cash surplus on
hand.

There are two very important
factors that should be taken into
consideration relative to the copper
industry. One is the growing demand
the other is the embodiment of
loyalty in all of the copper mines. The
average cost of production in the
important mines is not nearly so
as it has been in ore thriving
The Old Dominion is a striking ex-
ample in this respect. Last spring
unable to produce copper at 13
a pound and continuously showing
deficit. Now it is making about
600 a month net. These are
figures that cannot be overlooked and
more than merely certain that
copper industry will steadily ad-
vance toward a point of greater security.

The Roosevelt bird visited the
of Mr. and Mrs. Paul Hastings
South Mount Vernon street yester-
day morning and presented this
couple with a healthy baby girl.
